Historic Work

Current Status

A STEWARDSHIP STRATEGY FOR GRIZZLY BEARS IN THE NORTH CASCADES OF BRITISH COLUMBIA

A framework through which grizzly bears can be restored to the North Cascades landscape and stewarded for generations to come through partnership and collaboration.

VISION

A framework through which grizzly bears can be restored to the North Cascades landscape, and stewarded for the generations to come, through partnership and collaboration.

PRINCIPLES

COEXISTENCE

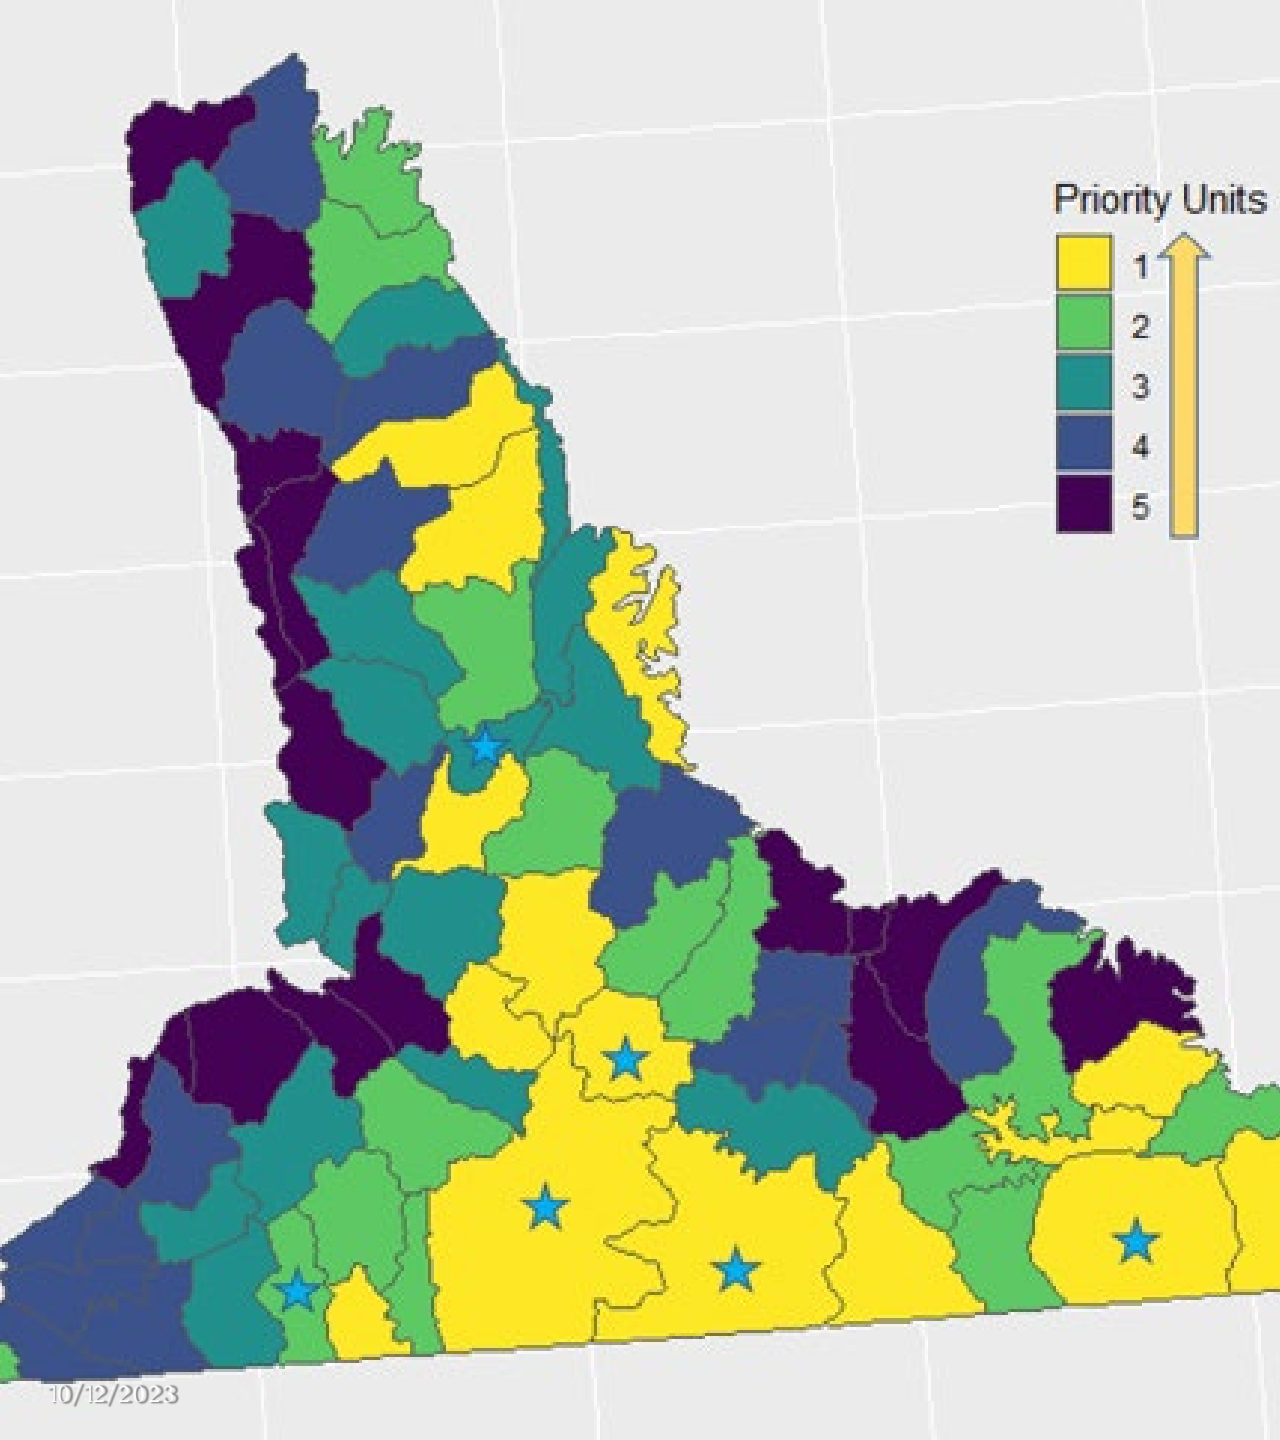

INTER
CONNECTEDNESS

INDIGENOUS
KNOWLEDGE

TWO-EYED SEEING
& COLLABORATION

ADAPTIVE

Habitat Prioritization

$$\frac{\text{Habitat Gain}}{\text{Cost}} = \frac{\text{Median Habitat/Road Density Post Restoration}}{\text{Restorable Road Density}}$$
