

# **IGBC BEAR-RESISTANT PRODUCTS**

# Attention!

You may notice that the IGBC's list of certified bear-resistant products has recently changed.

Manufacturers of IGBC-certified bear-resistant products are required to verify that their products are still manufactured to their original specifications, and that they are still available to consumers, and to annually pay an administrative fee. This process helps ensure that the information IGBC is providing to the public about these products is accurate and current.

Products from manufacturers that have completed this verification process appear on this list of IGBC-certified bear-resistant products. If a manufacturer has not completed the annual verification process (including payment of their administrative fees), then their products do not appear on the IGBC's list of certified products.

Manufacturers can contact the testing program, confirm the status of their IGBC-certified products, pay the required administrative fee, and have their products added back to the official IGBC list of certified bear-resistant products.

# Introduction

Interagency Grizzly Bear Committee (IGBC) Bear-Resistant Products (BRPs) provide a way to secure food, garbage, and other attractants on public and private lands. These BRPs have been tested by the IGBC and meet or exceed minimum IGBC standards.

Interagency Grizzly Bear Committee BRPs are one method of complying with some food and garbage storage requirements on public lands. These requirements apply to most National Forests, National Parks, and federal lands managed by the Bureau of Land Management within grizzly bear range. They may also apply on some state lands. In addition, some municipalities, private land owners, and homeowners associations require use of IGBC BRPs through garbage ordinances and by-laws.

Please ensure you are choosing or using a product that complies with the requirements that apply in that location.

The IGBC List of Certified Products includes two groups of bear-resistant products and designs.

- Bear-Resistant products that the IGBC has confirmed are available for purchase. Links provided with these products connect to the manufacturer's homepage or other websites where the product can be purchased.
- Electric fence designs and products that have been tested and meet IGBC standards to secure attractants in areas with grizzly bears. \*

\* Electric fence designs and products listed in this document are not intended to replace bear aware recommendations to prevent bears from being attracted to tents and/or areas while people are sleeping.

Products in this document have been tested by the IGBC and have met IGBC standards as grizzly bear-resistant. Certification does not guarantee that a grizzly bear will never gain entry into these products. Nor does the IGBC guarantee that small amounts of the contents of the containers won't be able to leak or spill out.

These commercial products and suppliers is presented for information only and inclusion in this document does not imply any endorsement of one product or source over another. Products are generally arranged in alphabetical order.

This official list of bear-resistant products will be updated as needed. Please note that some products may be marketed or sold under different brand names.

# **IGBC BEAR-RESISTANT PRODUCTS**

## **BACK PACKING & SMALL STORAGE CONTAINERS**

### **ADOTEC**

Ultralight Food Locker, Grizzly Bear Model – IGBC Certification No. 245493 (Approved 08-13-24)  
226-456-3316 [www.adotecgear.com](http://www.adotecgear.com)

### **ALUBOX.COM**

Metal Storage Case, Model A042 - IGBC Certification No. 5411 (Approved 8-10-21)  
+45 57601002 [www.alubox.com](http://www.alubox.com)

### **BearVault**

BV425 - IGBC Certification No. 5422 (Approved 6/13/22)  
BV450 - IGBC Certification No. 5339  
BV475 - IGBC Certification No. 5423 (Approved 6/13/22)  
BV500- IGBC Certification No. 5340  
866-301-3442 <http://www.bearvault.com>

### **Grub Can**

Wave 6.6 - IGBC Certification No. 5414 (Approved 10-11-21) NOT CURRENTLY IN PRODUCTION  
Wave 10.0 - IGBC Certification No. 5415 (Approved 10-11-21) NOT CURRENTLY IN PRODUCTION  
Carbon 6.6 - IGBC Certification No. 5427 (Approved 6-23-22)  
Carbon 4.5 - IGBC Certification No. 235484 (Approved 10-25-23)  
928-853-8070 [www.grubcan.com](http://www.grubcan.com)

### **Missoula Technical Development Center**

Modifications to 50 Caliber Ammo Box: Military grade solid steel ammunition cans, with hinged lid and locking latch. Must be modified to include a bolt (with nut and washer) through the latch that prevents the latch from being opened and lid removed when bolt is in place (as shown in "[Interagency Grizzly Bear Committee. 1989. Bear-Resistant Containers – Minimum design and structural standards; Inspection and testing methodology.](#) Page 18."). These types of ammunition cans are available in various sizes. Acceptable dimensions include: length: 10"–19; height: 7" – 15"; width: 3" – 10 ". IGBC Certification No. 5419

### **REI**

Traverse Bear Can, Model 25200 – IGBC Certification No. 245491 (Approved June 27, 2024)  
208-610-8887 [www.rei.com](http://www.rei.com)

### **Ursack (Bear Saga, LLC)**

Food Storage Bag – Model: Ursack Major (Previously the S29 AllWhite) – IGBC Certification No. 3738  
Food Storage Bag – Model: AllMitey – IGBC Certification No. 5135 (Approved 4-24-17)  
440-570-1503 [www.ursack.com](http://www.ursack.com)

## Open-Head Steel Drums

Open-head, steel drums, sizes 5 to 55 gallons, with steel lids that attach to the drum head with a metal ring around the rim that is secured with a bolt and nut, or with a self-locking lever that is secured with a metal carabiner or padlock. Drums should be constructed of 12 – 20 gauge steel (i.e., steel thickness between 0.9 mm (0.035”) and 1.5 mm. (0.059’’)). - IGBC Certification Number 235466 (Approved May 10, 2023)

## PANNIERS and BOXES

### Colorado River and Trails Expeditions Inc.

Rafting Dry Box - IGBC Certification No. 5446  
800-253-7328 <https://crateinc.com>

### Industrial Design & Equipment, Inc. DBA Indeco Inc.

Aluminum Storage Pannier Model 3.03 – IGBC Certification No. 3767  
360-393-9750 <http://www.indeco-usa.com>

### Mad Cow Metal Works

Aluminum dry boxes ranging in size from 12”x8”x7” to 40”x16”x16”, IGBC Certification No. 3353  
Aluminum horse pannier 24”x13”x18” – IGBC Certification No. 3355  
406-581-9115 <http://madcowmetalworks.com>

### Metalworks of Montana

Aluminum Pannier/Storage Box– IGBC Certification No. 2810  
406-728-5070 [www.metalworksofmont.com](http://www.metalworksofmont.com)

### Outfitters Supply, Inc.

Trail Max Pack Panniers Item# WPA500 – IGBC Certification No. 5279 (Approved 04/30/10)  
406- 892-3650 [www.outfittersupply.com](http://www.outfittersupply.com)

## COOLERS

**\*\* COOLERS REQUIRE USE OF BOLTS AND NUTS OR APPROPRIATELY-SIZED PADLOCKS TO BE BEAR-RESISTANT \*\***

### Bison Coolers

Bison 25 QT Cooler, Model 500101 - IGBC Certification No. 235482 (Approved 9/14/23)  
Bison 50 QT Cooler, Model 500201 - IGBC Certification No. 235470 (Approved 7/25/23)  
Bison 75 QT Cooler, Model 500301 - IGBC Certification No. 235480 (Approved 9/6/23)  
682-235-5125 [www.bisoncoolers.com](http://www.bisoncoolers.com)

### Cixi Dafeng Plastic Metal Industry Co., Ltd.

Cooler Box Model GMD35L - IGBC Certification No. 235477 (Approved 8/15/23)  
Cooler Box Model GMD65L - IGBC Certification No. 235478 (Approved 8/15/23)  
Cooler Box Model GMD20L - IGBC Certification No. 5271 (Approved 11/13/19)  
Cooler Box Model GMD55L - IGBC Certification No. 5261 (Approved 7/23/19)  
Cooler Box Model GMD75L - IGBC Certification No. 5269 (Approved 10/28/19)  
86.0574.6222.1115 <http://good-mood.net>

## **Cold Bastard Outdoors**

Hard Cooler, Model Rugged+45 – IGBC Certification No. 5389 (Approved 8/21/20)

Hard Cooler, Model Rugged+70QTW – IGBC Certification No. 5406 (Approved 6/14/21)

Hard Cooler, Model Rugged+20QT – IGBC Certification No. 5407 (Approved 7/21/21)

951-239-0402 [www.coldbastardcoolers.com](http://www.coldbastardcoolers.com)

## **EUFORIC Brands (see Maluna Unhinged)**

### **GoatBoxCo.**

HUB 50 Cooler - IGBC Certification No. 225430 (Approved 8/4/22)

HUB 70 Cooler - IGBC Certification No. 225435 (Approved 10/17/22)

979-575-0182 [www.goatboxco.com](http://www.goatboxco.com)

### **GOSARGE Coolers**

50 QT Cooler, Model APC-50 - IGBC Certification No. 255499 (Approved 5/29/25)

210-460-9646 [www.gosarge.com](http://www.gosarge.com)

### **Lifetime Products**

Lifetime 28 QT Cooler, Models 90911, 91020, 91023, 91024, 91183, 91226, 91289: IGBC Cert. No. 5248 (Approved 12/05/18)

Lifetime 28QT High Performance Cooler, Model 91178 – IGBC Cert. No. 5425 (Approved 6/21/22)

Lifetime 48QT Cooler, Model 91074, 91227, 91325 – IGBC Certification No. 5399 (Approved 5/12/21)

Lifetime 55 QT Cooler, Models 90820, 90895, 90949, 91021, 90914: IGBC Cert. No. 5169

Lifetime 55 QT Wheeled Cooler, Model 91072, 91165: IGBC Cert. No. 5391 (Approved 10/15/20)

Lifetime 65 QT Cooler, Models 90983, 90997, 91005, 290983, 91061, 91085, 91070, 91131: IGBC Cert. No. 5267 (Approved 10/22/19)

Lifetime 65QT Wheeled Cooler, Model 91179 – IGBC Cert. No. 5428 (Approved 7/22/22)

Lifetime 77 QT Cooler, Model 90903: IGBC Cert. No. 5245 (Approved 11/26/18)

Lifetime 115 QT Cooler, Models 91000, 91108: IGBC Cert. No. 5288 (Approved 7/10/20)

Lifetime 28QT Cooler, Model 26714924 – IGBC Cert. No. 255497 (Approved 5/19/25)

Lifetime 48QT Cooler, Model 26714927 – IGBC Certification No. 255498 (Approved 5/19/25)

## **ELECTRIC FENCING TO DETER GRIZZLY BEARS**

The IGBC recommends several electric fence designs that have been proven effective in deterring grizzlies and are an option for securing bear attractants in areas frequented by grizzly bears. The first design is intended for longer term applications including securing livestock, fruit trees, compost piles, chicken coops and other attractants on private lands, as well as securing outfitter camps on both public and private lands.

The second design describes components of portable electric fences that can be used when recreating in bear country to secure attractants and campsites, or whenever a temporary means of securing bear attractants is needed. Please consult with the land management authority for the area you plan to recreate in for information about specific food storage requirements in that area.

### **A Note About Proper Use of Electric Fences:**

Common reasons for electric fence failures include failing to turn the fence on at night, improperly grounding the fence, inadequately clearing weeds, shrubs or trees shorting out fences, and failing to fully charge batteries. Protecting energizers from excessive jarring and moisture will also minimize chances of energizer malfunction (i.e. broken internal wiring or on/off switches) and the resulting electric fence failure. To ensure that fences are working properly, test the amount of voltage flowing through the fence using one of the economical and lightweight voltage testers that are now available.

Two Tech Tips bulletins from the US Forest Service's Missoula Technology and Development Center provide an excellent overview of electric fencing and proven recommendations for setting up an effective electric fences. Relevant Tech Tips bulletins are available online by visiting the links below, or by calling the Missoula Technical Development Center at 1-406-329-3900.

## Permanent or Semi-Permanent Fence Designs

The seven strand electric fence has applicability in situations such as permitted base outfitter camps, or around beehives, orchards or chicken coops on private land where the fence is typically in place for a longer period of time.

Table 1. Summary of Recommended Specifications for Permanent and Semi-Permanent Electric Fences.

Summary of Permanent and Semi-Permanent Electric Fence Specifications	
Minimum Required Voltage	5000 Volts
Minimum Number of Shocks per Minute	40
Minimum Ground Rod Length	18 to 24 inches in length (1.5 to 2 feet)
Minimum Distance Between Fence and Items Inside	36 inches (3 feet)
Voltmeter Required?	YES
Minimum Energizer Output	0.7 joules
Minimum Fence Height Required	48 inches (4 feet)
Minimum Post Length	48 inches (4 feet)
Minimum Fence Height	48 inches (4 feet)
Maximum Spacing between Posts	96 inches (8 feet)
Minimum Number of Strands of Wire	7
Maximum Distance between Wire Strands	10 inches (.83 feet)
Ground Wire Return System Required (alternating hot and ground wires)	
Fence Wires Must Be Either Smooth Metal Fence Wire (16 gauge minimum) or Polywire with at Least Six Strands of Stainless Steel Wire	

## Portable Electric Fence Designs

Portable electric fences are an effective method of temporary food storage in grizzly bear country. Table 2 summarizes the minimum specifications necessary to deter grizzlies. These specifications may be updated as additional testing of portable electric fences are tested in areas frequented by grizzlies.

Table 2. Summary of Recommended Specifications for Portable Electric Fences.

Summary of Recommended Portable Electric Fence Specifications	
Minimum Required Voltage	5000 Volts
Minimum Number of Shocks per Minute	35
Minimum Ground Rod Length	12 inches (1 foot)
Minimum Distance Between Fence and Items Inside	1.50 feet (18 inches)
Voltmeter Required?	YES
Minimum Energizer Output	0.11 joules
Minimum Fence Height Required	33 inches (2.75 feet)
Minimum Post Length	42 inches (3.5 feet)
Minimum Number of Horizontal Wires	7
Maximum Fence Length	720 inches (60 feet)
Minimum Number of LED Lights	2
Minimum Number of Stainless Steel Wire Strands Per Horizontal Wire	3
Maximum Size of Horizontal Opening in Mesh	12 inches (1 foot)
Minimum Pulse Duration	0.05 milliseconds
Post Construction	Polyethylene (allowed) or Fiberglass (recommended); with metal spike on bottom
At Least One Readable Placard Warning that Fence is Electrified	

## **IGBC-CERTIFIED PORTABLE ELECTRIC FENCING PRODUCTS**

Products listed in Table 3 below meet IGBC minimum requirements for portable electric fences. Fences must be built according to the specifications listed in Table 2 and must be working properly in order to meet food storage regulations in areas where portable electric fences are allowed.

This does not imply that the products listed below can be used to meet food storage regulations on all public lands. Please check with the appropriate land management authority for guidance regarding acceptable methods of meeting food storage orders in that area.

Table 3. IGBC-Certified Portable Electric Fencing Products

<b>UDAP Industries, Inc. - Bear Shock Fence</b> <i>Portable Bear Net Electric Fence built according to specifications in Pub# 0723-2305 MTDC</i> 406-494-9292 or 866 BEAR 911 <a href="http://www.PepperPower.com">http://www.PepperPower.com</a>
<b>Counter Assault – Pentagon Electric Bear Fence</b> <i>Portable Mesh Electric Fence built according to specifications in Pub# 0723-2305 MTDC</i> 406-257-4740 or 800-695-3394 <a href="http://www.counterassault.com">http://www.counterassault.com</a>
<b>Patriot - Bear &amp; Nuisance Animal Fence Kit</b> (Approved 5/10/16) <i>Portable Mesh Electric Fence built according to specifications in Pub# 0723-2305 MTDC</i> 800-874-8494 <a href="http://www.tru-test.com">www.tru-test.com</a>  <b>Note:</b> this kit does not contain an energizer to power the electric fence. In order to meet IGBC specifications, an energizer meeting the specifications set forth in Pub# 0723-2305 MTDC must be used with the kit. The kit recommends using either the Stafix/Speedrite AN90 or the Patriot PB12 model energizer, both of which meet IGBC specifications.
