

# IGBC BEAR-RESISTANT PRODUCTS

**IGBC-CERTIFIED PRODUCTS**  
**NOT CONFIRMED BY MANUFACTURER**

# Attention!

Each year, manufacturers of IGBC-certified bear-resistant products are required to verify that their products are still manufactured to their original specifications and that these products are still available to consumers.

This process helps the IGBC provide current and accurate information about IGBC-certified products to consumers.

Products from manufacturers that have NOT completed the verification process appear on this list and still carry IGBC certification.

Manufacturers can contact the testing program at **[testing@igbconline.org](mailto:testing@igbconline.org)**, complete the verification process, and have their products added back to the list of confirmed IGBC-certified products.

## IGBC Bear-Resistant Products Not Confirmed

### As Available for Purchase

Interagency Grizzly Bear Committee (IGBC) Bear-Resistant Products (BRPs) provide a way to meet requirements for securing food, garbage, and other attractants on public and private lands. These BRPs have been tested by the IGBC and meet or exceed minimum IGBC standards.

Each year the IGBC contacts the manufacturers of these products to confirm that each of their products is still available to consumers and product specifications have not changed since tested and certified by the IGBC. The IGBC has not been able to confirm that products listed are currently being manufactured to the same specifications tested and certified, or are currently available for purchase by consumers. As a result, these products are not included on the main list of certified products. They are considered IGBC-certified, however.
